FOR

MODERN LAUNDRY MACHINERY

J. J. LANE LTD

ECONOMY & EFFICIENCY

are not to be attained in the Laundry by the installation of cheap machinery.

The **BEST** *is good enough for most Launderers.*

Give us an opportunity to tell you all about it.

How to get to LANES'.

It is always a pleasure to welcome those interested in our products or to visit them and place our whole experience and service at their disposal without obligation.

PHOENIX WORKS,

CRANBROOK STREET, OLD FORD ROAD.

LONDON, E.2.

THINGS YOU SHOULD KNOW

THERE are certain vital factors necessary to Laundry Success under modern conditions. One of the principal and most important of these factors is the quality of work and finish. 'Thoroughness' builds us reputation, and a good reputation is the golden key to success.

The *perfect* washing of **FLANNELS and BLANKETS** often presents a tiresome problem.

Hatton's Ammoniated Soap Powder

solves that problem effectually, and is an ideal cleanser for woollens.

For **LINEN & COTTON GOODS** use **HATTON'S**

Ammoniated Soap Powder

and

Hatton's Quantex

in equal proportions, when the elimination of all dirt and impurities is positively assured.

'Finish' is another all-important consideration. For shirt and collar work

Hatton's Double Gloss Starch

gives super-excellent finish, while for boiled work

Hatton's Triple Starch

has an unquestionable supremacy.

Perhaps the most vital of all the factors which make or mar a laundry reputation is the use of Blue because it largely qualifies all the other subsequent processes. Delicate and perfect tinting requires colour-uniformity in the tinting solution and a mean density of tint throughout the entire water bulk necessitates a degree of solubility which few blues possess.

Hatton's True Blue

claims the proud distinction of *absolute solubility*—no dregs, no particles, no residue of any kind. Its mass disolves into pure liquid colour, and any degree of tint can therefore be easily obtained and maintained.

¶ *The above articles, manufactured solely by Hattons, have built up the success of many leading laundries all over the Kingdom, and what has proved to be the best for them is, and must be, the best for YOU!*

Report of the Federation Executive to the National Council

Submitted to and approved by the Annual Meeting, held on 8th June, 1921.

9th MARCH, 1921.

GENTLEMEN,

We have the honour to submit our first Annual Report as the Executive Committee of The National Federation of Launderers, Limited, originally formed as the National Federation of Laundry Associations, Limited, 20 years ago.

As most of our activities have been reported each month in the pages of the *Federation Journal*, only a summary is necessary here.

First, we consider that in all the circumstances it is very satisfactory that our membership reached 1,505 by the 31st of December, 1920. This was made up of 1,398 laundries and 107 second members. Of this number 1,242 were members of the originally Federated Associations, and 263 had not previously been connected with our movement. The membership of the original Associations was 1,566, and we regret that it has not yet been possible to persuade the remaining 324 members to join the new body, but in view of the increased subscriptions we do not see any cause for discouragement, but rather the contrary.

We were, at the time, a little doubtful as to the advisability of appointing the two Assistant Secretaries until a larger income had been assured, but the results obtained have, we submit, justified the action.

The enlarged size of our *Federation Journal* has been a source of expense, but we are convinced that this publication has been a strength to the movement by keeping every member in close touch with all important matters in hand. It has also had a decidedly educational value, and we have reason to believe is greatly appreciated by our members, especially by those situated in other than the large industrial centres.

The result of the Fulham Municipal Bagwash Laundry case in the High Court is eminently satisfactory, and is yet another illustration of the vital necessity for the existence of such an organisation as our Federation. The victory will have an influence far beyond the confines of the laundry industry, and will help to discourage municipal trading generally.

The work in connection with the Laundry Trade Board has been very heavy during the last six months of 1920, and, though nine of the twenty-four Employers' Representatives on the Board are not members of the Federation, the heavy work of the side has fallen upon our Secretary as Leader, Mr. Crabtree as Secretary to the Employers, and the whole of the detail work, collection of statistics, etc., upon our clerical staff. This is one of the many matters in which we serve not only our members but the whole industry. The guaranteed weekly wage has disappeared. The increases in the hourly rate are viewed by us with grave concern at a time of uncertainty and slack trade like the present. The Council will have to consider seriously what steps should be taken to prevent any further increases.

The Industrial Commissioner's work fortunately has not been so heavy for the last few months, but the attached summary of his activities will show how important and exacting is this department of our work.

The Fabrics Investigation Committee is evidently serving a real need. This is evidenced by the large and increasing number of cases submitted to them, details of which will be found in the attached report.

The 1920 Congress at Brighton was very useful and enjoyable, but the attendance was rather disappointing. Arrangements are in hand for 1921 at Buxton, when we hope to have the pleasure of welcoming an influential deputation of American launderers. This is a unique event, which we trust will be celebrated by a record attendance.

We are pleased that it was possible for our General Secretary to visit America at the end of the summer, and we hope that the information which he obtained there will be of service to the laundry industry in this country. We greatly appreciate the generous welcome accorded to him in the United States of America.

The work of organising in accordance with the Constitution has been very heavy, but we believe the effort spent in this direction will prove to have been well worth while. Ten District Councils have been formed, for:—

Scotland	East Anglia
North Eastern Counties	Hampshire, Dorset and South Wiltshire
North Western Counties	South Western Counties
Midlands	South Wales
West of England	London and Home Counties

Fifty-six Sections are now in existence, and others are in course of formation. It is not unlikely that in some few cases the areas covered by the District Councils may have to be re-arranged slightly, but that was inevitable. There is every reason to believe that our membership will be considerably increased during 1921, in fact good progress has already been made in this direction. We appeal to every one of our 1,500 members to help the staff in this necessary work.

It would have been more satisfactory if our Trading Account for the first year had shown a substantial surplus, but the initial expenses have naturally been heavy. Our Finance Sub-Committee is giving most careful consideration to reducing our expenses and to keeping them at the lowest possible level consistent with efficiency. We draw attention, however, to the fact that if the non-recurring items were eliminated the income would have exceeded the expenditure. The problem of Sectional Expenditure has given us considerable anxiety, but already arrangements have been made to reduce this item in several places where it was unduly heavy.

Our industry has passed through an exceptionally and in many respects unexpectedly difficult year, in common with all the trades of the country, and even of the world.

At the moment the prospects are not encouraging. It is difficult to foresee what the future holds in store for us. Widely differing views are held. Some believe that in the course of a few months, or in a year or so at latest, our pre-war volume will return to us, while others think that our methods will have to be materially altered if we are to avoid a still further shrinkage. We do not consider at the present stage it is within our province to give any advice or even to take upon ourselves the dangerous role of prophets. That is a matter which can best be considered or debated at our next Congress. We do say, and that most emphatically, that in our judgment the condition of the industry renders the existence of a powerful national organisation a vital necessity, and we call upon every laundry proprietor to give us his whole-hearted support.

Plans and Estimates given.

From these figures it will be seen that there is a large increase in the number of cases in which the laundry methods are responsible for the trouble. This is a very serious matter, which appears to point to the necessity for a thorough investigation. Whether these methods have deteriorated during the last few years or not, we cannot say; but a comparison of the above figures, with those for previous years, would seem to indicate something of the sort.

You will notice that the number of cases sent to us has increased very largely. Whether this is owing to the natural growth of the work, or merely to the fact, arising from the reorganisation of the Federation, that laundrymen throughout the country have only recently come to know of the existence of the Committee, we do not know. But it would certainly appear probable that our work will increase still further during 1921.

We suggest the Executive consider the publication of analyses of materials offered to the laundry industry. We consider this would be of the greatest benefit to our members at the present time.

From January to December, 1920, we held 26 meetings, at which the attendance was as follows:—

Mr. C. F. Townsend	23	
Mr. A. R. Frost	24	
Mr. T. Taylor	23	
Mr. J. R. Peers	20	
Mr. J. W. Akam	21	
Mr. W. Creeke	8	—out of a possible 9
Mr. C. Marshall	3	,, ,, 17 (since resigned)

Yours faithfully,

On behalf of the Committee,

J. R. PEERS,
Chairman.

APPENDIX No. 3.

Industrial Commissioner's Report.

Respecting the 68 cases reported as having been settled by negotiations and agreement (Appendix 3c), it is desirable to note that even where negotiations and agreements have been arrived at, this does not necessarily mean that concessions have been granted, nor yet even though an agreement is entered into does it necessarily follow that the terms of such can be considered as unreasonable. In fact, with very few exceptions, the settlements during the year have been of a moderate character.

Five cases have been settled by correspondence, and six applications for increased wages definitely rejected, without argument or discussion.

Sixty-seven cases have been disposed of without either a recognised settlement, agreement or concession being granted. The reason for such a high percentage of cases being so disposed of, may be found in the changed attitude of the department to demands received through Trade Unions. In the latter part of 1919 and early in 1920 it became apparent that the Trade Unions were making demands which were neither by the request of the workers themselves, nor yet in many cases with their knowledge. Where there were reasonable grounds for suspecting this, advice was given to our members concerned and a very firm attitude taken up, with the result that the Trade Unions found it necessary, in by far the greater number of cases, to abandon the claims.

ESTABLISHED OVER 100 YEARS.

Although in this case increase of wages was conceded, Bristol provides a suitable illustration. The demand was made by the N.F.W.W. for a 45/- minimum rate for adult female workers. The employers carefully considered the application, and agreed that certain concessions were justified. An offer was made to the N.F.W.W. official, who rejected it, and put in strike notices. On the advice of the Department the employers severally approached their workers and made the offer direct. The offer was accepted by the workers, and no strike took place. This policy, however, is one which could not be advised indiscriminately, as it may be a very dangerous procedure unless the circumstances are such as would warrant the risk it entails.

In view of the experience of the past twelve months the policy of the future is one requiring careful consideration. Whilst Trade Unionism cannot be ignored, and even were this advisable, it does not seem desirable to resist to the utmost any demand where there is sufficient evidence to indicate that the application is not at the expressed desire of a fair proportion of the workers, or that the Trade Union does not adequately represent the workers.

The past month or two the cost of living has been on the decline, and there is every appearance of a continuance in this direction for some time. Whilst this obtains it is very probable that the activities of the Trade Unions will be more or less restricted, and as a consequence, the Department may, with confidence, look forward to a little relief, as probably demands may be few until a general level has been found. On the other hand many sections of employers are considering the advisability of making a move for a reduction in the rates of wages, and no doubt this will develop as the cost of living comes down.

I wish to place on record my appreciation of Mr. Record's services during the period he was assisting me.

W. CRABTREE,

Industrial Commissioner.

APPENDIX No. 4.

Records of Meetings.

Only one meeting of the National Council of the Federation has been held up to the present, but there were two meetings of the Council of the Old Federation held during 1920, *viz.*, March 24th and July 21st, and it will probably be useful to know the attendances at all three meetings.

National Council.

The following were present at the three meetings:—

Mr. J. Abey	Mr. G. D. Densham	Mr. D. T. Newbegin
,, D. E. Benson	,, E. L. Lockwood	,, G. Payne
,, W. Bird	,, R. R. Lister	,, J. R. Peers
,, W. Creeke		

The following was present at two meetings (possible 3):—

Mr. J. W. Akam

The following were present at two meetings (possible 2):—

Miss K. Maclean Mr. A. F. Smith

The following was not present at all (possible 1):—

Mr. J. Newton.

Executive Committee.

In addition there have been six meetings of the Executive. Messrs. D. E. Benson, W. Bird, W. Creeke, G. D. Densham, J. R. Peers, and T. Taylor, were present at the six meetings. Mr. D. T. Newbegin was present at five meetings. Messrs. J. Abey, E. Jackson and R. R. Lister were present at four meetings. Messrs. F. Carr and J. K. Fairlie were present at three meetings.

The following were not elected until 22nd July, 1920, and attended two meetings out of two:— Mr. R. M. Bell and Mr. W. W. Fisher.

There have been five meetings of the Profiteering Committee. These were attended as follows:—

Mrs. Barber	4	Mr. G. D. Densham	4
Miss Allsop	4	Mr. D. T. Newbegin	4
Miss Huddleston	3	Mr. J. R. Peers	1
Miss Jeoffroy	1	Mr. W. Creeke	4
Miss Maclean	3	Mr. R. F. Brett	3
Miss Pelham Burn	1	Mr. E. Jackson	3
Miss E. Robinson	0		

The Fulham Committee met six times, Mr. G. D. Densham, Mr. J. R. Peers and Mr. W. Creeke were present at each meeting, Mr. T. Taylor at four, and Mr. E. Jackson at three.

Appendix No. 5.

Extracts from the Report of the Finance Committee.

In estimating the current rate of expenditure, we find that of the total expenditure for 1920, £720 odd is not likely to recur; but there are additional expenses to be provided for, totalling about £430, thus showing a saving of nearly £300. If the Executive decides to proceed in the House of Commons against the proposed new Bill of the Metropolitan Water Board, the legal costs will be about £300.

NORWOOD & DULWICH DYEING, CLEANING, AND CARPET BEATING CO., LTD.,
HAMILTON ROAD, WEST NORWOOD, S.E.27.

On the subscription income side, without allowing for any new members after 1st February, 1921, the income for 1921 would appear to be £8,700.

The Committee recommended economies in a few directions, and drew attention to the fact that the expenses of representatives to District Councils appeared to be in some cases excessive.

Attention was drawn to the Sectional Petty Cash expenditure, which varied a great deal, but it was felt that it would be unwise at the present time to make any definite rules regarding it. It would be observed from the Revenue Account that the total of the Sectional Petty Cash was about 10% of the subscription income, which should be a guide to Local Sections.

APPENDIX No. 6. **Southport Strike Fund.**

The Committee, after going into the claims, decided it would be reasonable to allocate £317 5s. 11d. Of this amount £240 has been distributed proportionately, leaving a balance in hand of £19 13s. 1d., against £77 5s. 11d. to meet the allocation.

As there has been so many appeals during the last year, the Executive decided to close the account forthwith.

APPENDIX No. 7. **Louth Disaster Fund.**

This Fund reached £351 3s. 1d., out of which £46 12s. 11d. has been actually expended.

Our Mr. Record assisted Mr. Winton in re-starting his place, and the balance in hand of £304 10s. 2d. will be paid over to Mr. Winton as and when required.

The Activities of the Federation.

1. **Protective.**
2. **Service.**
3. **Constructive.**

1. Protective.

The establishment of the Laundry Trade Board has increased the work and responsibilities of the Federation. In addition to attendance at meetings of the Board, there is much to be done in preparation for these meetings. There are, too, several sub-committees of the Board in connection with the issue of Licences, etc., which create a mass of detail work. It has also increased our correspondence, as we are constantly receiving enquiries as to the meanings of the Orders. Recently there have been numerous cases of alleged infringements of the Order in regard to Piece Rates, which have necessitated close investigation into the earning capacity of the rates and lengthy conferences with officials of the Board.

Through our Parliamentary Agents we have to watch new legislation, and, when necessary, oppose it.

The Laundry Welfare Order is now being enforced strictly, and we are called on for advice and assistance in straightening out differences of opinion between Factory Inspectors and laundryowners. It will be remembered that in the first instance the Federation obtained important modifications in the Draft Order.

Our Industrial Commissioner's Department is now an established part of our organisation and is a model for other organisations similar to our own.

2. Service.

The work of our Fabrics Investigation Department has grown very largely. Whereas in 1920 one hundred and ninety-nine queries were received, in the first four months of 1921 the number was one hundred and twenty-five. Not only are we serving our members individually through this department, but we are obtaining recognition for the industry. We now have working arrangements with most of the leading retailers for collective action in preventing the sale of faulty fabrics.

Most laundrymen use our model Rules and Regulations for Customers on their customers' washing books. We are glad to say that many are also displaying them in their offices in the form of glazed posters. Now we are advising printed reference to the Rules on counter slips, billheads, etc. What we are aiming at is the establishment of a universal custom of the trade.

In the case of disputes as to the amount of compensation due in the event of loss or damage we are willing to act for our members, and in many cases have been able to arrange settlements without going to Court.

Through our Legal Advice Department we are able to give legal advice in the first instance free of charge.

The existence of our Launderers' Mutual Insurance Co., Ltd., is known to all our members, and we can only advise everyone to place all their insurances with this Company, which has saved its insured so many thousands of pounds during the ten years of its existence.

Our *Federation Journal* is referred to under "Publications," but it may be said that many members consider its issue to be one of our most helpful services.

3. **Constructive.**

The preliminary work in connection with the British Launderers' Research Association has made heavy claims on our time and energy, but it will certainly be found to have been one of the most important things we have ever done.

In the past we have obtained a good deal of newspaper publicity of a useful kind. In the near future it is hoped to do something on a much more ambitious scale.

Our Annual Congresses—now an established institution—have done much to improve the status of the industry.

Equally useful, though in a different way, has been the establishment of Local Sections wherever a few members were available.

Exchange of Working Costs.

This is a new feature of our work which we hope to develop during the next twelve months. There has been a growing feeling amongst our more progressive members that laundrymen have been much too secretive in the past, and that it would be a mutual help if working costs in percentages could be exchanged. The Federation has prepared a Form for this purpose, a copy of which will be supplied on application. Those joining in the Exchange are asked to make a return monthly. These returns are dealt with under numbers, and tabulated. A copy of the tabulation is sent monthly to each person making a return, but no names are mentioned, so that strict privacy is ensured.

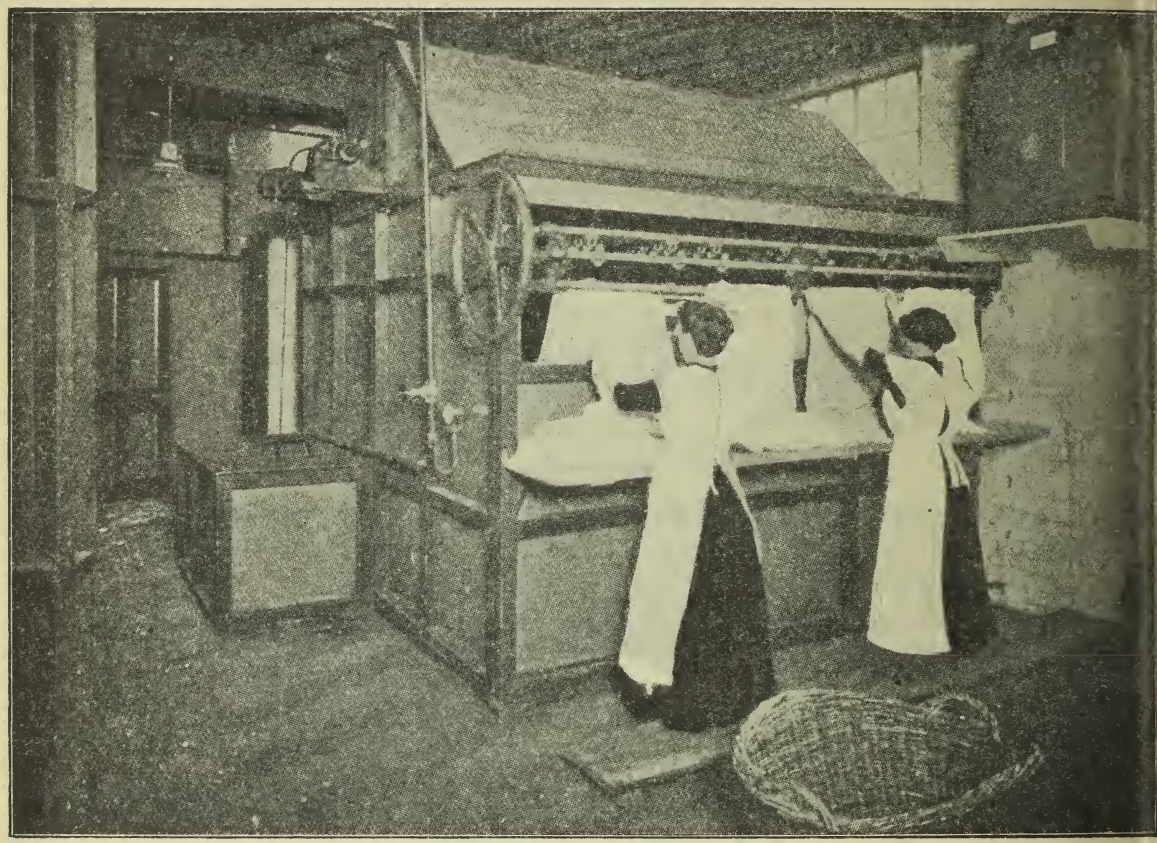

The subject of Accountancy for Laundries has received considerable attention in the pages of the Federation Journal, and the groundwork has thus been laid for a really sound system of Working Costs. The opinion is sometimes expressed that this kind of thing is only possible in and suitable for large Laundries. This is quite a mistaken idea It is just as necessary in small plants, and the figures can be obtained with very little trouble if the work incidental thereto is done regularly.

The scheme has been tested privately in a number of both large and small laundries with such practically useful results that considerable enthusiasm has been aroused. We are therefore encouraged to press all members to join in this new movement.

Full information can be obtained from the General Secretary.

Fabrics Investigation Department.

Committee: Messrs. J. R. Peers (Chairman), J. W. Akam, W. Creeke, A. R. Frost, T. Taylor, and C. F. Townsend, F.C.S.

The report of the Fabrics Investigation Committee included in the Annual Report of the National Executive (printed elsewhere in this Handbook), reveals the importance of the work of this department. The statistics prove that the work is becoming increasingly well known and appreciated. The large increase in the number of faults attributable to wrong laundry methods is not pleasant to record, although there is a certain satisfaction in knowing where the blame lies, because this knowledge enables the launderer to provide remedies.

Members of the Federation are entitled to send in ten queries a year free of charge The committee meet at frequent intervals. In sending queries members are requested to forward as much information as possible, as unless full particulars are given when the articles are sent delay in arriving at a decision is unavoidable. The following information is of great assistance to the Committee.

(a) Actual names of washing materials used and duration of various washing processes.

(b) Methods of drying (for cases of shrinkage).

(c) Whether put through a mangle or calender.

(d) Whether washed by hand or in a machine (in the case of flannels and coloured goods).

(e) Length of time in hydro extractor (flannels).

(f) Any other details likely to help the Committee.

(g) Period (in months or years) for which the laundry has been responsible for washing the particular article.

N.B.—Launderers should take every opportunity of advising their customers not to purchase dyed goods unless the colours are guaranteed fast; or flannel goods unless they are guaranteed unshrinkable.

Publications.

"The Federation Journal," published monthly; the official organ of the Federation; issued to Members free. The *Federation Journal* contains reports of Section meetings, technical articles, and all necessary information on matters of interest to the Laundry Industry. It is the medium for all important announcements which the Executive and officials wish to make, and it should therefore be read very carefully each month as soon as it is received.

"What the National Federation of Launderers is doing for the Laundry Industry," free on application to the General Secretary.

Gummed Slips. The following gummed slips speak for themselves, but we would draw particular attention to the necessity for using No. 31 say every two or three months. The slip should be gummed into the customer's book against the total of the week's account. If this is done from time to time the customer cannot legitimately contend that her attention has not been drawn to the Rules and Regulations.

THE WASHING OF WOOLLEN, COLOURED AND SILK GOODS.

The attention of Laundry Customers is drawn to the fact that there is still a quantity of inferior material on the market. Colours are not "fast"; much of the wool is short fibred, if not actually "shoddy"; and artificial and weighted silk is also sold in large quantities.

In these circumstances it is often impossible for the Laundry owner, however careful he may be, to avoid shrinkage, loss of colour, or, in the case of artificial silk, holes in the garment, for which the manufacturer is responsible.

Therefore it must be distinctly understood that while every care will be taken to obtain satisfactory results, no responsibility can be undertaken by launderers for this class of goods.

Published by the National Federation of Launderers, Ltd.,
162-7, Bank Chambers, 329, High Holborn, W.C.1.

No. 3a.

NON-LIABILITY.

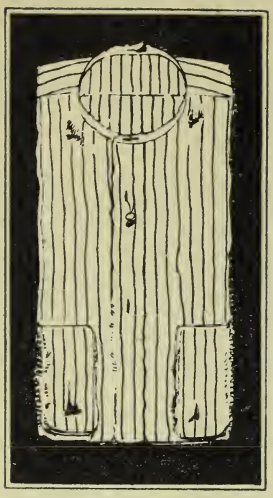

The attention of customers is drawn to the following extract from the conditions on which work is accepted by this laundry:—

"In accordance with the custom of the trade no responsibility can be accepted for shrinkage or damage of "any article, arising from defective manufacture, adulteration or deterioration, or from wear and exposure, or "other defects becoming apparent during treatment."

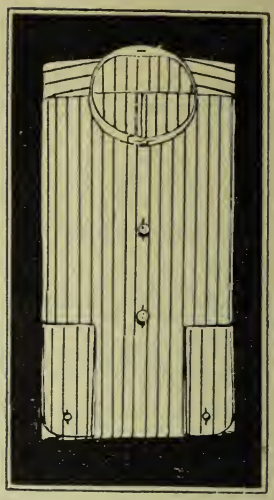

Published by the National Federation of Launderers, Ltd.,

COMPENSATION FOR LOST OR DAMAGED GOODS.

Extract from the conditions on which work is accepted.

CLAIM.—Claims for loss or damage or for alleged overcharging or unsatisfactory work, must be made in writing direct to the Firm within seven days. In the case of the former, a full description, and in either of the other cases, the article or articles of which complaint is made and the list or book upon which same is entered must accompany the claim.

COMPENSATION.—The liability of the Laundry for any article is limited to the value of such article at the time of its loss or damage, and in no case shall this exceed twenty times the amount charged for the laundering of such article.

INSURANCE.—Subject to the above, the Launderer undertakes to make good any loss sustained by reason of goods being destroyed by Fire whilst held in trust, provided such loss is not recoverable under customer's own Insurance Policy.

Published by The National Federation of Launderers, Ltd.,
162-7 Bank Chambers, 329, High Holborn, W.C.1.
No. 34.

COLLARS.

COMPLAINTS are sometimes made against laundries owing to collars having such a short "life." From careful enquiry it has been found that the usual cause of this is not careless or improper laundry methods but faulty manufacture. Inferior fabrics or combination of unsuitable materials are mainly responsible, and in these circumstances laundries cannot accept responsibility for unsatisfactory results (and need for rapid renewal) which are unavoidable in spite of the utmost care taken in redressing.

Laundry Trade Board.

The Laundry Trade Board was established by the Minister of Labour by a Departmental Order dated 1st May, 1919, in accordance with powers conferred upon him by the Trade Boards Acts, 1909 and 1918.

Female Workers. The first Order, fixing a guaranteed time rate of 28/- per week, a piece-work basis time rate of 8½d. per hour, and a guaranteed time rate for piece-workers of 24/- per week, became operative from the 24th of November, 1919.

Proposals were issued in July, 1920, to increase these figures to 30/-, 9d. and 25/- respectively, and, within a radius of 30 miles of Charing Cross to 35/-, 10½d., and 30/-. The objections which were lodged against these proposals were considered by the Trade Board in October, 1920, but the higher rate for London was not confirmed

In the meantime it had been discovered by the Ministry of Labour that the fixing of a guaranteed weekly amount was beyond the powers of the Trade Board; consequently the 30/- rate was converted to an hourly one of 7½d., and this figure became the national minimum for time-workers.

At the same meeting of the Board it was resolved to issue Proposals for a further increase of the time rate to 8d. per hour, with corresponding advances to piece-workers These Proposals came before the Board for confirmation on the 12th of January, 1921. The Employers exerted every possible effort to secure a postponement of the operation of the new rate, but the Board decided by a majority to confirm it, every one of the employers present voting against the resolution. In view of the unusual circumstances and the critical position of the Laundry Industry, the employers, after recording their votes against the confirmation of the proposals, withdrew from the Board and proceeded as a deputation to the Ministry of Labour to urge the Minister not to confirm the Order when it came to him. A meeting of the National Council of the Federation was held on the 24th of February, and a strong resolution was forwarded to the Minister urging him to refer the Order back to the Trade Board owing to the substantial decline in the cost of living which had taken place during the preceding three months. A few days later members of the Laundry Trade Board were informed that the Minister of Labour had referred the Order back to the Board for further consideration. A special meeting was held on the 20th April to deal with the situation, and it was again decided to confirm the Order. As before, all the employers present voted against the confirmation, and the Ministry of Labour was again interviewed, but unsuccessfully, as the Minister this time ratified the Order. It came into operation on 30th May, 1921. Before the Order was printed and circulated the Board met again and decided to exclude the county of Cornwall and the Orkney and Shetland Islands. At the same meeting the employers moved for a reduction of the national rate from 8d. to 7d., but before a vote on this could be taken the workers obtained the adjournment of the board until 21st July, 1921.

Male Workers. An Order imposing a guaranteed weekly rate of 60/- to men of 21 years of age and over "wholly or mainly" employed as washhousemen and general inside workers came into operation on 19th July, 1920. The rates laid down in the Order may now be interpreted as hourly rates (on the basis of 60/- for 48 hours in the case of men of 21 years of age and over) as it was subsequently discovered that the Trade Board had no power to impose a guaranteed weekly wage. The Order does not apply to workers wholly or mainly employed as transport workers, enginemen or stokers.

Members of the Federation who are not clear as to their obligations under the Trade Board Orders should communicate with Bank Chambers.

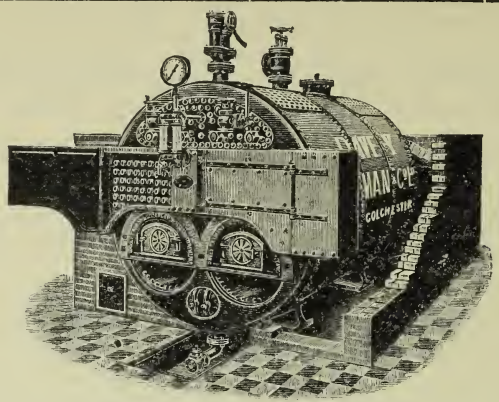

Copies of any of the Orders or Proposals can be obtained either from Bank Chambers or from the Secretary, Laundry Trade Board, Office of Trade Boards, 7-11, Old Bailey, London, E.C.

Constitution of the Board. The first Laundry Trade Board consisted of 17 workers' representatives, 17 employers' representatives, and three appointed members, all of whom retired at the end of the first year of service. On the ground that various interests had not been represented the Minister of Labour increased the size of the new Board to 24 on either side. The present Board is constituted as follows:—

Appointed Members—Mr. P. B. Clegg Mellor, Mrs. M. H. Prichard.

Employers' Representatives—
Andrew Bain, Premier Inverness Laundry, Inverness.
D. E. Benson, Southport Laundry, Ltd., Sussex Road, Southport.
W. Bird, J.P., 1, Claremont Road, Newcastle-on-Tyne.
Miss E. Bracher, Auton Laundry, Andover, Wilts.
H. Brookes, Ashley Steam Laundry, Bristol.
J. Brown, Central Laundry, Loughborough.
F. Carr, Wolverhampton Steam Laundry, Wolverhampton.
W. Crabtree, Country Steam Laundry, Witton, Blackburn.
W. Creeke, Anglo-American Laundry, Burmester Road, Lower Tooting
Mrs. Duke, Wanted Laundry, Piccadilly, York.
J. K. Fairlie, West of Scotland Laundry, Milngavie, near Glasgow.
H. Greenfield, 246, Kilburn Lane, W.10.
F. L. James, Forest Gate Sanitary Laundry, Forest Gate, E.
Mrs. K. Meredith, The Caefelin Laundry, Llangollen, Denbighshire.
D. T. Newbegin, "Houghton," Rookery Road, Staines.
V. Norrie, Inglis Green Laundry, Slateford, Edinburgh.
Miss Pettitt, The Mill Laundry, Aldeburgh, Suffolk.
J. Russell, Colchester Steam Laundry, Colchester.
J. H. Shortridge, Messrs. T. Shortridge & Sons' Laundries, Dumfries.
— Simpson, Craigie Steam Laundry, Craigie, Perth.
J. J. Stark, 162-7, Bank Chambers, 329, High Holborn, W.C.1.
W. Stephenson, Lytham Street, Church Street, Newton Heath, Manchester.
J. Vaughan, Canton Steam Laundry, Llandaff, Cardiff.
G. F. Weller, "St. Aubyn's," 74, Wadham Road, Portsmouth.

Workers' Representatives:—
Mrs. August (National Federation of Women Workers).
Mrs. A. Bleasdale (National Union of Distributive and Allied Workers).
H. T. Botting do. do. do.
Mrs. A. Butler (National Amalgamated Union of Labour).

THE PAXMAN "ECONOMIC."

EXTRACT from a letter recently received from a well-known Laundry:—

"It is very nearly ten years since we laid "down one of your 'Economic' Boilers, "during that time we have had uninterrupted, "satisfactory, and economical working."

The above speaks for itself. The advantages offered by the Paxman "Economic" Boiler are fully explained in our catalogue, No. 700C, which we will gladly send to prospective clients.

Compensation for Lost or Damaged Goods.

"Twenty Times Value."

In order to limit the amount of compensation which a launderer can be called upon to pay in the event of the loss or damage of customer's goods, the following rule appears in the Model Rules and Regulations of the Federation.

> Compensation will be awarded for loss or damage caused by negligence to any article whilst in their possession, but in no case shall compensation exceed an amount **equal to 20 times the amount charged for laundering such article.** Provided always that the launderer shall not be held in any way responsible for any article of exceptional, special or fancy value, unless the customer's valuation of such article be written clearly in the list containing same, and the launderer's attention is especially called to it in writing.

A number of cases in which this rule has been upheld have been heard in County Courts since the rules and regulations were drawn up. County Court decisions are not legal precedents, and no case in which the validity of the rules and regulations could be tested has yet been heard in the High Court. In an action for slander heard in the King's Bench Division towards the end of 1920, Mr. Justice Bray remarked, during the hearing of a case, that the launderer was quite justified in instituting rules and regulations under which he accepted work from the customer. Although many favourable decisions have been given by County Court Judges it is essential, in order that the existence of a contract between the launderer and the customer can be established, for evidence to be produced that the rules and regulations were, in some way or other, brought to the customer's notice, although it is by no means necessary that the customer should have read them. The mere printing of the rules on the inside cover of the washing book would probably not be accepted by the judge as sufficient. A clearly printed statement should appear on the front of the washing book, and the following is the form of words suggested:—

"All work is taken subject to the terms and conditions printed on pages — of cover."

As an additional precaution it would be well to reprint the words in small type at the top of each page. If, in addition, gummed slip No. 31 is pasted against the total of the week's account in the customer's book, say every two or three months, adequate precautions will then have been taken, and the customer could not reasonably contend that the rules and regulations had not been brought to her notice.

In one of the earlier cases, His Honour Judge Selfe held that while he believed that the customer had not read the conditions and possibly did not even know of their existence, yet the laundry company by notice on the front of the washing book had taken such steps as were reasonable in all the circumstances to bring them to his customer's notice, and that therefore they constituted a contract. He therefore entered judgment for the laundry company with the costs of the action subsequent to the payment into Court of 20 times the washing value of the articles lost.

Although no legal precedent has yet been set up by the High Court, considerable progress towards the establishment of a custom of the Trade has been made. This is supported by an announcement which has made by the Registrar of one of the London County Courts about two years ago. In giving his decision in a certain case he announced that he had conferred with other London Registrars and they had agreed amongst themselves to accept the Rules and Regulations in cases which came before them.

T. H. HARRIS & SONS, Ltd.,
THE SOAP MAKERS,
Marshgate Lane,
STRATFORD, London

The foregoing remarks apply, of course, only to customers who are supplied with official washing books containing the rules, but similar disputes arise with people who use their own books or separate lists. These are generally customers who take their work to and from the laundry or receiving depot. To meet this phase of the problem we have printed the rules and regulations on stout glazed cards poster size (which do not require to be framed) for display in depots and in windows so that every person who calls may not fail to see the announcement. This poster is headed:—

"All work whether called for at customer's premises or brought by customers to the laundry is accepted only on the following terms and conditions."

It must not be thought that the display of this notice creates a contract between the launderer and the customer, but it goes a long way in the desired direction. It would be wise to take some additional precaution, for example:—a numbered ticket could be given as a receipt for each parcel left, and it should be understood that the work will not be given out until this numbered ticket is produced. On the ticket should be printed words to the following effect:—

"This work is only undertaken subject to the conditions displayed on the walls of our receiving office and printed on the covers of our customer's washing books. A copy of the conditions will be supplied on application."

Members are urged to advise the General Secretary of any case in which action in respect of lost or damaged goods is being taken against them by a customer. The experience of the Federation officials in cases of this kind has been quite extensive and might be of considerable benefit to members concerned.

Rules and Regulations for Customers.

The rules and regulations which were adopted some years ago—after very careful consideration—and which have been amended from time to time in the light of experience, are printed below. Our efforts to secure acceptance of these rules and regulations as creating a contract between the Launderer and the Customer are proving increasingly successful in the Courts. We believe that there are now very few Launderers who have not the rules and regulations printed in their washing books.

The same Rules are issued on large glazed cards for use in Depots. The object of these cards is to establish the same kind of contract with the customer who does not use one of the official laundry books. For the convenience of members who have books on the covers of which the Rules have not been printed, we have a stock printed on gummed paper, 8″ × 4″.

Price of gummed slips—4/6 100; 15/- 500; 21/- 1,000.

Glazed Cards—2/- each *plus* cost of packing and postage.

NOTICE.

Our Customers' attention is directed to the following terms and conditions, which apply to all work undertaken by us.

Payments.—All accounts are payable weekly, and are due upon tender of articles, and no credit is given unless special arrangements are made direct with the Launderers. Vanmen are not agents of the Launderers for the purpose of giving credit, and if goods are left as a matter of courtesy without special arrangements as aforesaid, no precedent for further credit must be understood.

Customers are particularly requested to obtain the Launderers' printed receipt for all payments made, as no other can be recognised.

The Launderers cannot be held responsible for loss of cash sent in the hamper with the linen.

Visitors and Servants.—Work from Visitors and Servants can only be accepted on the distinct understanding that the customer is responsible for payment unless written agreement is made to the contrary.

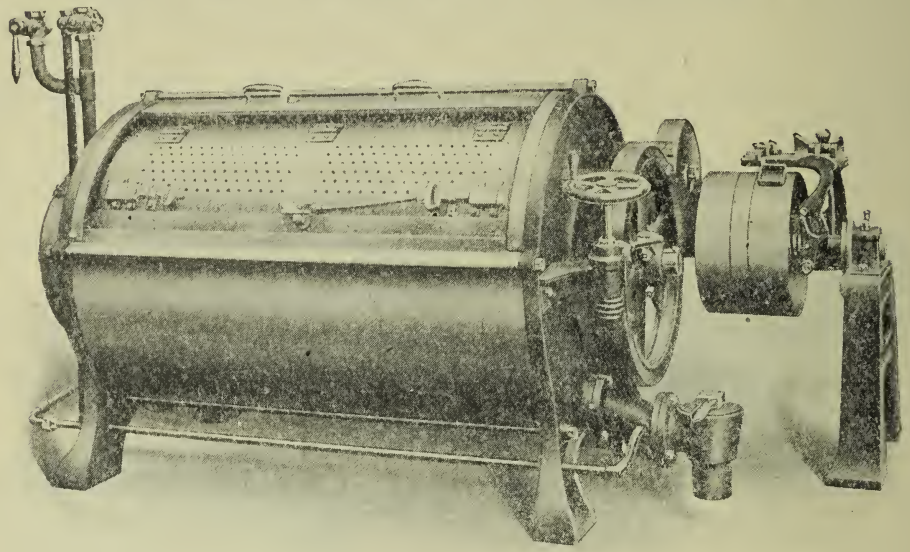

Errors.—In the event of any error occurring Customers are earnestly requested to send particulars in writing within seven days direct to the office, when it will be rectified as soon as possible, but this must form no ground for delay in the settlement of the account. Vanmen are strictly forbidden to make any deductions or allowances.

Lien.—The Launderers shall have a lien upon any articles belonging to a customer at any time in his possession, for and to the extent of any amount owing by such customer to the Launderers.

Marking.—All work received is marked with the Launderers' distinctive letter or number in ink or cotton, but the Launderer will not be responsible for the loss of any article sent which is not indelibly and distinctly marked by the customer with the owner's name in full.

MANUFACTURED BY— *ASK FOR NEW CATALOGUE 146.*

THE CHERRY TREE MACHINE CO., Ltd.,

Established 1870 **BLACKBURN, Lancs.** Contractors to Admiralty, War Office, etc., etc.

Listing.—All articles sent to the Laundry should be plainly entered in a book which must accompany the linen; or the Launderers may lend a book for the purpose, as responsibility cannot be accepted for articles which are not so entered. Customers are requested to see that linen sent in bundles is securely fastened, as otherwise the Launderers cannot accept responsibility for articles lost.

Messages and Early Delivery.—The Vanmen are directed not to carry verbal messages. Any communications should be addressed to the office in writing but not enclosed in the hamper. A request for early delivery should be sent direct or given to the vanmen in a separate letter, and must arrive on or before the receipt of the work. **Under no circumstances should it be written in the book or enclosed in the work,** as in such case the request is not seen until the hamper is unpacked in its proper order for sorting, which might be too late.

Old Linen.—Articles sent much worn, or in a frail or damaged state, will be washed at **owner's risk** only.

Valuable Linen, Lace and Silk.—In the case of articles of more than ordinary value, such **value must be declared** in the Washing Book, otherwise the Launderer will **not be responsible** for loss or injury to an extent greater than the average value of plain articles of a similar description.

Curtains and Blinds.—As Curtains and Blinds are so liable to become tender through storage for a long period in warehouses and shops, also by exposure to sunlight and atmospheric conditions, they can only be accepted at owners' risk.

Coloured Goods.—The Launderers cannot accept responsibility for the washing out of colours of a fugitive nature, **as inferior dyes are now being largely used in the process of manufacture.**

Stains are not removed except by special instructions, and then at owner's risk only.

Infected Linen.—Under no circumstances will the laundering of any infected articles be undertaken, nor will linen, whether disinfected or not, be received from any household in which there is infectious or contagious illness or disease.

Unclaimed Linen.—The Launderers will not be responsible for linen not claimed within three months from date of being sent to Laundry.

Baskets, Boxes and Bags, when provided and left, for the convenience of the customer, must be duly returned, otherwise they will be charged for.

Non-liability.—In accordance with the custom of the trade no responsibility can be accepted for shrinkage or damage of any article, arising from defective manufacture, adulteration or deterioration, or from wear and exposure, or other defects becoming apparent during treatment.

Claims.—Claims for loss or damage must be made in writing, within seven days from the date of the alleged loss or damage; in the case of the former a full description, and in the case of the latter the article must accompany the claim, and in both cases the list on which the article is entered.

Insurance.—Subject to the above the Launderers undertake to make good any loss sustained by reason of goods being destroyed by Fire whilst held in trust, provided such loss is not recoverable under customer's own Insurance policy.

Compensation will be awarded for loss or damage caused by negligence to any article whilst in the Launderer's possession, but in no case shall compensation exceed an amount equal to **20 times the amount charged for laundering such article.** Provided always that the Launderers shall not be held in any way responsible for any article of exceptional, special or fancy value, unless the customer's valuation of such article be written clearly in the list containing the same, and the Launderers' attention be specially called to it in writing.

DEPRECIATION.

Special Rates of Depreciation for Laundry Machinery, Etc.

As the outcome of negotiations to obtain more reasonable rates of Depreciation for Laundry Plant and Motor Vans, the following arrangement with the Board of Inland Revenue was come to in 1919:—

Rates for Income Tax.

Plant and Machinery, including Engines, Boilers and Shafting	7½%
Motor Vans	20%

Both rates on the written-down value from year to year. For the years 1918-19, 1919-20 and 1920-21, an additional allowance of 3¾% will be allowed on Plant and Machinery. This was a war-time concession and took effect from 6th April, 1918. The rate of 20% on Motor Vans will also be allowed as a charge against profits. When any Plant or Machinery is replaced owing to obsolescence the written down value of the superseded machine will be allowed as a charge against Revenue.

The additional war allowance of 3¾% in respect of plant and machinery has not been extended for the year ending April, 1922. It should be pointed out, however, that the 7½% and 20% respectively are permanent.

Rates for Excess Profits Duty.

Plant and Machinery	11¼%
Motor Vans	20%

Both these rates will be allowed to date back to all accounting periods subsequent to those charged for E.P.D. at the rate of 50%. The rate of 11¼% on plant and machinery has only been allowed until April, 1921; thereafter the rate will be 7½%.

Surveyors of Taxes throughout the Kingdom have received official instructions from Somerset House, London, to make these allowances. Members should therefore apply to their Surveyor to make the necessary adjustment and allow the deduction from current assessments or instruct a cash refund to be made. If any trouble is experienced the matter should be reported to the Federation, when the necessary steps will be taken to adjust matters.

SUBSCRIPTIONS AND INCOME TAX.

Subscriptions to the Federation or to the British Launderers' Research Association are allowed as a Trading Expense for Income Tax purposes.

Laundry Welfare Order.

The following is the text of the Laundry Welfare Order which came into operation on the 1st of June, 1920:—

STATUTORY RULES AND ORDERS,
1920, No. 654.

FACTORY AND WORKSHOP.
Welfare.

ORDER, DATED APRIL 23, 1920, MADE BY THE SECRETARY OF STATE UNDER SECTION 7 (1) OF THE POLICE, FACTORIES, &C. (MISCELLANEOUS PROVISIONS) ACT, 1916, (6 & 7 GEO. 5, C. 31), FOR SECURING THE WELFARE OF THE WORKERS EMPLOYED IN LAUNDRIES.

In pursuance of Section 7 of the Police, Factories, &c. (Miscellaneous Provisions) Act, 1916, I hereby make the following Order for all factories and workshops or parts of factories and workshops which are laundries. Provided that paragraphs 3 and 5 of the Order shall not apply to laundries in which no mechanical power is used and in which not more than five persons are employed.

1. The occupier shall provide and maintain in good and clean condition, for the use of all persons employed in processes involving exposure to wet, suitable protective clothing, including waterproof boots or clogs, and also, for persons engaged in sorting soiled linen, suitable overalls or aprons with bibs, and armlets from wrist to elbow.

2. The occupier shall provide and maintain for the use of all the persons employed suitable accommodation for clothing put off during working hours, with adequate arrangements for drying the clothing if wet.

The accommodation so provided shall be placed under the charge of a responsible person, and shall be kept clean.

3. The occupier shall provide and maintain for the use of all the persons employed and remaining on the premises during the meal intervals a suitable messroom, which shall be furnished with (*a*) sufficient table and chairs or benches with back rests, and (*b*) unless a canteen serving hot meals is provided, adequate means of warming food and boiling water. The messroom shall be sufficiently warmed for use during meal intervals.

The messroom shall be separate from the cloakroom, and shall be placed under the charge of a responsible person, and shall be kept clean. Provided that, in the case of an existing laundry where there are structural difficulties in the way of such separation, the Chief Inspector of Factories may by written certificate (which may be revoked at any time) allow some other arrangement if satisfied that it provides suitable accommodation for the workers.

4. The occupier shall provide and maintain for the use of all the persons employed suitable facilities for washing, comprising a sufficient supply of clean towels, soap and warm water, adjacent to where the work is done.

5. The occupier shall provide in readily accessible positions a sufficient number of "First Aid" boxes or cupboards.

SIMON'S LESSIVE

A Washing Powder . . Specially . . Manufactured for Laundries

No Soap or Soda required
Saves Time, Money & Labour
Harmless to the Linen : :

Awarded the Certificate of the Institute of Hygiene.

¶ Write for a free working sample and full particulars. We will send a representative (a practical launderer) to demonstrate the method of using free of charge and prove that SIMON'S LESSIVE will give BETTER RESULTS at a LOWER COST than any other washing material.

All Laundry Requisites Supplied

Send for Samples and Prices of anything you require.

CAMILLE SIMON, LTD.

Strand-on-the-Green, Chiswick, W.4.

TELEphone: CHISWICK 341.
Grams: "LESSIVE, GUNNERS, LONDON."

Established 1860.

Each box or cupboard shall be distinctively marked, and if newly provided after the date of this Order shall be marked plainly with a white cross on a red ground, and shall contain, besides any other medical appliances or requisites:—

(i) Suitable first-aid dressings for fingers, hands, feet or other injured parts.
(ii) Sterilised cotton wool.
(iii) Burn dressings (large and small).
(iv) Plaster—waterproofed on the outside.
(v) Ointment, a bottle of iodine solution and a bottle of sal volatile.
(vi) A copy of the First Aid leaflet issued by the Factory Department of the Home Office.

Nothing except appliances or requisites for First Aid shall be kept in a "First Aid" box or cupboard.

Each "First Aid" box or cupboard shall be kept stocked and in good order and shall be placed under the charge of a responsible person, who shall always be readily available.

A notice or notices shall be affixed in every workroom stating the name of the person in charge of the "First Aid" box or cupboard provided in respect of that room.

The provisions of this paragraph shall not apply to laundries attached to hospitals, asylums, or other public institutions in which arrangements are provided for medical treatment of accidents and illness.

6. The occupier shall provide for all female workers whose work is done standing, facilities for sitting so as to enable them to take advantage of any opportunities for resting which may occur in the course of their employment.

7. The occupier shall provide and maintain at suitable points, conveniently accessible at all times to all persons employed:—

(*a*) An adequate supply of wholesome drinking water from a public main or from some other source of supply approved in writing by the local authority of the district in which the laundry is situated, which shall be either laid on, or contained in a suitable vessel;

(*b*) (except where the water is delivered in an upward jet from which the workers can conveniently drink) at least one suitable cup or drinking vessel at each point of supply, with facilities for rinsing it in drinking water.

Each drinking water supply shall be clearly marked "Drinking Water."

All practicable steps shall be taken to preserve the water and vessels from contamination.

8. This Order shall come into force on the 1st June, 1920.

E. Shortt,
One of His Majesty's Principal Secretaries of State.

Whitehall,
23rd April, 1920.

Members are requested to report to Bank Chambers any difficulties they encounter in carrying out the provisions of the Order.

REDUCE YOUR COAL BILL!!

The greatest economy yet to be effected is in the Stokehold of your Boilers. You can obtain the same over-all efficiency by burning low-grade inferior fuels such as slack, coke, coke breeze, trade or town refuse, instead of coal, AT MUCH LESS COST, by adopting

WILTON'S FURNACES

(Oil Burners can be fitted).

Write for Booklet :—

THE CHEMICAL ENGINEERING and WILTON'S PATENT FURNACE Co., LTD.
(Dept. W.B.)
76, Victoria Street, London, S.W. 1.

Taxes on Motor Vehicles.

The Finance Act, 1920, states that:—

On and after the first day of January, 1921 "there shall be charged, levied and paid in Great Britain and Ireland in respect of mechanically propelled vehicles *used on public roads*, duties of excise at the rates specified in the Second Schedule to this Act."

The words put in italics show that it is only vehicles that are USED that must be paid for.

Private Cars. The duty on private motor cars, whether used for business or pleasure is:—

		Quarterly
Not exceeding 6 horse power, or electrically propelled,	£6-0-0	36/-
Exceeding 6 horse power	£1 per h.p.	6/- per h.p.

The horse power is calculated as follows:—

Multiply the diameter of the cylinder in inches by itself, *i.e.*, square the diameter in inches of the cylinder and divide the product by 2.5 and multiply the quotient by the number of cylinders.

In cylinders having two pistons proceed as above, but divide by 1.6 instead of by 2.5.

Cycles.	£ s. d.
Bicycles not exceeding 200-lbs. in weight, unladen	1 10 0
,, exceeding 200-lbs. but not exceeding 8-cwts.	3 0 0
,, if used for drawing a trailer or side car, an additional sum of	1 0 0
Tricycles not exceeding 8-cwts. unladen	4 0 0
Motor Scooters and Cycles with attachment for propelling them by mechanical power—the same as motor bicycles.	
Vehicles not exceeding 5-cwts. in weight unladen, adapted and used for invalids	0 5 0

Quarterly licenses are not issued for bicycles but for any machine used for the first time after the 30th Septenber, the duty is one-half the annual duty.

For private cars (but not for commercial vehicles) if the owner proves to the satisfaction of the taxation authority that the engine of the car was constructed before the 1st January, 1913, he is entitled to a repayment of 25% of the duty paid.

The full duty must be paid in the first case, and a claim for the rebate made on a special form RF 13/8.

Commercial Goods Vehicles constructed or adapted for use and used solely for the conveyance of goods in the course of trade (including tricycles exceeding 8-cwt. unladen):—

	Licence Fees.	
	Annual.	*Quarterly.*
Electrically propelled, and not exceeding 25-cwt. in weight unladen	£6 0 0	£1 16 0

Other Vehicles:—	Licence Fees. *Annual.* £ s. d.	*Quarterly.* £ s. d.
Weight unladen.		
Not exceeding 12 cwt.	10 0 0	3 0 0
Exceeding 12-cwt. but not exceeding 1 ton ..	16 0 0	4 16 0
Exceeding 1 ton but not exceeding 2 tons ..	21 0 0	6 6 0
Exceeding 2 tons but not exceeding 3 tons ..	25 0 0	7 10 0
Exceeding 3 tons but not exceeding 4 tons ..	28 0 0	8 8 0
Exceeding 4 tons	30 0 0	9 0 0
If used for drawing Trailer (additional duty) ..	2 0 0	0 12 0

All weights are unladen weights, *i.e.*, stripped of spare wheels, water, fuel, accumulators and loose details and loose equipment.

To obtain a Licence. Application must be made to the local County or Borough Council for a form (RF1 for private cars and cycles, RF 4 for Commercial Goods Vehicles), and the particulars demanded filled in as to the horse power, style of body, chassis number, engine number, and year of manufacture, weight of vehicle, where it is kept and the registered number (if the vehicle has one, if not, the Authority concerned will allot one).

Lodge the form accompanied by the amount of the duty with the County or Borough Council and a licence card will be sent accompanied by a licence Registration Book.

The licence card must be displayed on the near side of the Vehicle within a rectangular area bounded by a line 2ft. 6in. from the ground as the bottom limit, 6ft. 6in. from the ground as the top limit. The back limit is the back of the driver's seat, and the front limit is six inches in front of the wind screen if there is one, if not then it is four feet in front of the back limit.

Or it may be displayed facing either forwards or backwards on the windscreen in the bottom near side corner, or within two inches of the glass either before or behind it, so as to be visible through the glass.

The licence must be enclosed in a metal holder, either rectangular or circular, glass fronted and waterproof. Where the licence is carried on the glass of the windscreen the metal holder may be dispensed with, if the licence is so carried as to be waterproof.

Quarterly licences, as will be seen from the above schedule, are 30% of the annual duty, and may be taken out for the quarters commencing the 1st of January, 25th of March, 1st of July or 1st October.

Quarterly licences can only be taken out from quarter to quarter.

It is not permissible to transfer the licence from one vehicle to another.

The Registration Book does not travel with the vehicle but must be kept in a safe place at the owner's address. It is transferred, with the licence card, to the new owner when the vehicle is disposed of. Certain spaces must be filled in by the owner of the vehicle.

If there is any alteration in the colour, the body-work, or in the engine of the vehicle, the Registration Authority must be notified, and the licence and Registration Book sent to them. (The vehicle cannot be used until the licence is returned).

If the owner of the vehicle changes his address he must inscribe his new address in block capitals in the Registration Book and post it to the Registration Authority.

The Registration Book may be inspected at the owner's address by an official or police officer at any time.

Whose Total Assets exceed £19,000,000.

BEFORE RENEWING WRITE or 'PHONE TO GENERAL MANAGER.

'Phone 601 HOLBORN. **Telegrams: "INSULAUND."**

Licence renewals may be made either at any Money Order Office, in which case the Registration Book *and the expiring licence* must be produced, or with the County or Borough Council, in which case the Registration Book alone is necessary, until the new licence is received, when the old one must be returned.

When a vehicle is sold the seller fills in the new owner's name and address in block capitals in the space provided in the Registration Book and sends the book to the local Registration Authority.

The buyer informs the same authority of his purchase and quotes the index mark and registration number of the vehicle. He must see that he receives the Registration Book from the Registration Authorities.

Number Plates for commercial vehicles or private cars must be of the prescribed dimensions:—

(1) All letters and figures must be $3\frac{1}{2}$ inches high; every part of every letter and figure must be $\frac{5}{8}$ inch broad; and the total width of every letter or figure, except the figure 1, must be $2\frac{1}{2}$ inches.
(2) The space between adjoining letters and figures must be $\frac{1}{2}$ inch. There must be a margin of $\frac{1}{2}$ inch between the top and bottom of the letters and figures and the top and bottom of the plate, and a 1 inch margin at the sides of the plate.
(3) The letters and figures must be white on a black plate.
(4) The letters and figures may be painted on the vehicle, but should not be painted on the radiator.
(5) The letters and figures must always be easily distinguishable.

There are heavy penalties for fraud, misrepresentation, obscuration of the licence or registration number.

The new system of taxation does away with all petrol rebates, but does not affect driving licences, which are still required.

Certifying Surgeons' Fees.

Enquiries are received from time to time as to the fees which certifying surgeons are entitled to charge under the Factory Acts. They are as follows:—

1/- per person examined, with a minimum fee of 2/6.

That is, if three people are examined the surgeon gets 3/-; if one person, 2/6; and likewise if two people are examined he gets 2/6.

If the laundry is more than one mile from the certifying surgeon's residence a further 6d. for each complete half mile over the first mile is chargeable.

Young persons and children must not be employed without a certificate for longer than seven days if the laundry is within three miles of the certifying surgeon's residence, or for longer than thirteen days if the laundry is more than three miles away.

RULES OF THE
National Federation of Launderers, Limited.

LOCATION.

1. The registered office of the Federation shall be situate in London.

2. All provisions and terms in the Rules for the time being in force are subject to the Memorandum and Articles of Association and are to be read and interpreted in the light thereof.

3. Each Member of the Federation shall give to the General Secretary of the Federation in writing the address at which he desires all notices of meetings and other communications from the Federation to be addressed. Each Member of the National Council, a District Council, and/or a Local Section, shall give to the Secretary of the National Council, the Secretary of the District Council and/or the Secretary of the Local Section whereof he is a Member the address in writing to which he desires all notices of meetings and communications to be sent, and in the event of his changing his address or desiring to alter the same, he shall immediately communicate to such secretary or secretaries and also to the Secretary of the Federation the new address to which notices and communications are to be sent, and if he fails to do so, he shall not be entitled to such notices or communications.

4. Subject to 3 the Secretaries of the National Council, the District Councils and the Local Sections respectively shall send by post a printed, typewritten or written notice of every meeting of the Council or branch of which he is Secretary, to the Members thereof in each case, at least eight days before the date of the meeting in question, such notice to state the time and place of the meeting and the nature of the business to be transacted thereat. Provided always that in cases of urgency shorter notice may be given for any meeting if the law will allow of a shorter notice.

5. The Secretaries of the District Councils, the Local Sections or committees thereof shall on the issuance of any notice of a meeting or of any report or balance sheet to the general Members of such District Council or local section at the same time forward a copy thereof to the General Secretary of the Federation.

6. Any notice sent by post shall be deemed to have been served on the day following that on which the envelope or wrapper containing the same is posted, and in proving such service it shall be sufficient to prove that the envelope or wrapper containing the notice was properly addressed and posted.

7. The National Executive shall have power to pay or arrange for the payment of out-of-pocket third-class travelling expenses and allowances as next mentioned to any Members in respect of attendances at meetings of the National Council, the District Councils, or of the executives or committees thereof. An allowance of One Guinea per day when attending meetings necessitating sleeping away from home. If a night's absence from home is not necessary a day's allowance of 10s. 6d. will be paid provided that the period of necessary absence from home is five hours or more. For an absence of less than five hours an allowance of 7s. will be paid.

SUBSCRIPTIONS.

8. Every Member of the Federation, other than Honorary Members, shall pay direct to headquarters, unless otherwise provided by the National Executive, or in the rules for the time being in force, an annual subscription in accordance with the following (or any such other) scales or rates as may from time to time be decided upon by the National Executive if approved by a General Meeting of the Members of the Federation.

SCALE.

(i) Ordinary Members.

(a) Three Shillings per worker per annum, with a minimum of £2 2s. od. per annum and a maximum of £31 10s. od. per annum for each laundry, dyeing or cleaning premises (hereinafter called "the premises"). The whole of the workers and staff employed, including all officials, are to be taken as the basis of the calculation of the amount due.

(b) In the case of persons or companies owning more than one premises each premises shall be treated as a separate entity for calculating the subscription due. A Member must pay on the total staff employed, *i.e.*, he cannot join for one premises only if he owns more than one.

(c) For the purpose of the foregoing the total number of employees, including all staff and officials on the pay roll for the last week of September shall be taken as the basis for calculating the subscription due on the 1st January following.

(ii) Associate Members.

Associate Members may be allowed from any premises paying the prescribed subscription, provided that not more than one additional Member shall be allowed for every 50 workers employed or portion thereof. Such additional Member or Members shall each pay a flat rate of £2 2s. od. per annum.

9. The Members of the Federation may at any time in General Meeting decide that an entrance fee shall be charged to new Members in addition to the annual subscription.

10. In the case of new Members the subscription shall be paid to the Federation either with the application for election to membership or within one calendar month of the notification that such application has been approved by the National Executive, otherwise the election shall be void. Annual subscriptions shall be payable in advance in all other cases on the 1st January in each year for the twelve calendar months ending 31st December following.

11. The National Executive may arrange with the Committees of the Local Sections for the collection locally of the fees and subscriptions due to the Federation in such manner and on such conditions as it deems fit. Provided always that on the last day of March in each year each Local Section shall forward to the Federation a detailed account of all fees and subscriptions received during the year and a remittance in full of the amounts received. The sections shall at the same time send a detailed account of all fees and subscriptions in arrears. The National Executive shall then undertake the collection of all arrears, and shall take all such necessary proceedings to enforce payment as it shall in its discretion deem advisable. The National Executive shall advise the Sections weekly of all entrances, fees or subscriptions received direct.

12. If a Member shall be elected after the first three months of the financial year have expired he shall pay the full subscription in respect of the first year of his membership, but in respect of the second financial year of his membership he shall pay a subscription of three-quarters, one-half or one-quarter of the annual fee, according to the date of joining, after which he shall pay each year the full annual subscription due in accordance with the scale in force for the time being.

13. Any Member whose subscription remains unpaid after the 30th April in any one year (except as previously provided for new Members) shall cease to receive the advantages and benefits of membership, and shall be liable to have his name removed from the Register of Members.

14. Local and District expenses duly authorised by the National Council shall be met out of the Federation funds, and the National Executive shall from time to time make remittances to the locality or district as required.

Experience of over 100 Years.

15. The Honorary Secretary of each Local Section shall on the election of any person or corporation as a Member by his Local Section forward the name and address of such elected Member to the Secretary of the Federation, who shall thereupon forward, if required, such Member a copy of the Memorandum and Articles of Association together with a copy of the rules.

16. The rules shall only be altered in accordance with the provisions made therefor in the Articles of Association.

WITHDRAWAL OF MEMBERSHIP.

Article 19 reads: "Any Member may withdraw from the Federation by giving notice in writing to the Secretary at any time and paying with such notice any unpaid subscription that may be due by such Member on election or thereafter (if any) and thereupon shall cease to be a Member of the Federation as well as of any Local Section thereof. Provided always that unless a Trade Member give one clear month's notice in writing before the expiry of the current year of his membership of his intention to retire, he shall be liable to pay his annual subscription for the ensuing year, or any other subscription which he would otherwise be liable to pay."

(Members of the Federation are entitled to a copy of the Memorandum and Articles of Association free of charge. For reasons of economy these have not been sent to Members unless asked for, but the General Secretary will be pleased to post a copy to any Member who makes application to Bank Chambers).

The development of the movement originated from a paper read by Dr. C. Dorée at the 1919 Congress held at Harrogate. It is established under the auspices of the Department of Scientific and Industrial Research. The Government have placed a fund of a million sterling at the disposal of the Department to enable it to encourage and assist industries to undertake research, this fund to be expended in the form of contributions by the Department to the income raised by the industries concerned. By this method the systematic development of research and the co-operation of science with industry will be carried out under the direct control of the industries themselves.

EVERY CLASS OF LAUNDRY SUNDRIES SUPPLIED

N. STEINBERG, LTD.,

19 & 20, DUFFERIN STREET, LONDON, E.C.1.

PHONE—CENTRAL 3584.

FACTORIES—ISLINGTON AND PECKHAM.

Government Grant.

As soon as the total subscriptions to the British Launderers' Research Association reach £2,500 the Government will contribute £ for £ for this sum, and will continue to so contribute up to £5,000 received from Members. It follows from this that, although the launderer is, after making deductions for Income Tax—only paying 1/4¾, the Government pays at the rate of 2/- for each worker. If the contributor is liable to Excess Profits Duty the cost of his subscription will work out at a lower figure.

Benefits.

Each firm subscribing to the British Launderers' Research Association will have the following privileges:—

1. The right to recommend specific subjects for research, and, if the Council of the Association consider the recommendation of sufficient general interest and importance, the research will be carried out without cost to the firm making the recommendation, and the result will be available to all the firms in the organisation.
2. The right to the use of any patents or secret processes resulting from all researches undertaken, without payment for licences, or at a low fee compared with that charged to outsiders.

It will be realised that no firm outside the Association will have these rights. The documents and the bulletins will only be available to members of the Association unless the Council decide otherwise.

The whole of the results of researches conducted by the British Launderers' Research Association will belong to the Association itself, which will hold them in trust for the benefit of its members.

Other Research Associations.

Research Associations for the following trades and industries have already been established:—

Boots and Shoes.	Scientific Instruments.	Music.
Cotton.	Rubber.	Leather.
Sugar.	Linen.	Electrical.
Iron.	Glass.	Silk.
Motor.	Cocoa, Sugar Confectionery	Cutlery.
Photographic.	and Jam.	Aircraft.
Portland Cement.	Non-Ferrous Metals.	Jute.
Woollen and Worsted.	Shale Oil.	Malleable Iron.

It will be realised, after the foregoing list has been perused, that the laundry industry is not embarking upon an isolated adventure. It will be equally clear that the industry is one to which research is applicable quite as much as, if not more than the trades mentioned.

Subscriptions.

The figure resolved upon for Members of the British Launderers' Research Association is 2/- **per annum in respect of every person of any description employed by the firm.**

Remission of Income Tax.

The Board of Inland Revenue have decided that subscriptions paid to Research Associations are to be recognised by the Surveyors of Taxes as business costs of the firms, and will not be subject to Income or Excess Profits Taxes. The income of the Associations will similarly be free of Income Tax. In these days of high taxation it will be understood that this reduces very largely the actual cost of the contribution, so far as the laundry proprietor is concerned. As a matter of fact it only deprives him of 1/4¾ per annum for each worker—a little over ¼d. per worker per week.

1905

Hotpoint

QUALITY MARK

1921

THE IRON WHICH WILL EVENTUALLY BE INSTALLED IN EVERY UP-TO-DATE LAUNDRY

The Hotpoint Electric Appliance Coy., Ltd.

21, BERNERS STREET, OXFORD STREET, LONDON, W.1.

The burden on each firm is less than the premiums for Fire, Employers' Liability, Unemployment or National Health Insurance.

Guarantee for five years.

In order that a Research Association may be placed upon a satisfactory financial foundation, and to avoid the results of research being prevented from attaining fruition through lack of funds, **the Government have made it a condition** that every member shall undertake to pay his subscription on the prescribed basis for a period of five years from the date of his election and to bind his estates and assets for his subscription each year. This may appear to some to be a somewhat arbitrary stipulation, but it will be agreed that as the Government contribute so generously and bind themselves similarly for five years they are entitled to impose reasonable conditions. A little reflection will prove that in order that the research conducted should have a fair chance of reaching the point of practical usefulness the income essential for this must be assured, and not subject to variation in amount or sudden cessation at the caprice of the contributor. It has been suggested that the amount of 2/- per worker per annum for five years could easily be paid by many firms as a lump sum, instead of by five annual instalments. This has been done by several in order to avoid a five year liability on the business.

Donations.

Those who are enthusiastically disposed to the idea of research may, in addition to their annual **subscription**, contribute a **donation.** They may either stipulate for this to be a single contribution or guarantee it in the same way as their subscription for the period of five years. The advantage of the latter course is that if guaranteed for the prescribed period the Government Grant of £ for £ can be claimed in respect of the donation.

Membership not limited to Members of the National Federation of Launderers, Ltd.

As the membership of the National Federation includes a large majority of those laundry proprietors who are likely to evince interest in the Research Association it is not probable that there will be many members who are not within the Federation, but the Articles of Association provide for the election of non-members of the Federation as associate members of the Research Association. The basis of subscription is the same in both cases. As the Government's contribution is national money membership of the Association must be open to the whole industry.

Administration.

The business of the Association is managed by a Council whose services are honorary. The Articles of Association provide that not less than two-thirds of the members of the Council shall be ordinary members—(*i.e.* Members of the National Federation of Launderers, Limited) and the remaining third may be associate members (*i.e.* non-members of the Federation).

General.

It is becoming increasingly understood that research work is of such a nature that scientists with special attributes must be engaged upon it in order to obtain results. Probably no Laundry Proprietor possesses the special qualifications or the time to devote to this kind of study. The problems to be solved are scientific as well as practical, and are such that in all probability only a scientist with special training can discover the solutions and thus reduce laundry costs and secure a higher degree of efficiency. Both reduced costs and greater efficiency are urgently needed at the present time.

It is admitted on all hands that there are still many things to be learned about the washing of clothes, commonplace occupation as it is supposed to be. There are many points about materials which require elucidation. In fact, there are many problems yet to be solved with regard to most of the departments of a Laundry. There is, of course, a great

deal of spadework to be done, information to be collected, theories to be investigated and tested, and experiments to be conducted before definite results can be expected. Those results will undoubtedly cheapen and improve present methods and processes, but there is a possibility, if not a probability, that some of them may revolutionise the Industry.

The next step.

The Federation has brought the Research Association into being. The Government has done its part in offering substantial financial support. **It now remains for launderers to do their part by joining the Association at once.** The Association cannot start work until the income reaches £2,500 per annum. Over £1,800 of this sum has now been guaranteed.

Unemployment Insurance Act, 1920.

(Amended by the Unemployment Insurance Act, 1921, and the Unemployment Insurance (No. 2) Act, 1921).

Subject to Amendment by Parliament about the end of June or beginning of July, 1921.

The Unemployment Insurance Act, 1920, came into operation on the 8th of November, 1920. The Act extended compulsory unemployment insurance to substantially all persons for whom Health Insurance contributions have to be paid, except outworkers and persons employed in agricultural work and private domestic service. A distinction from Health Insurance is that workpeople over 70 will be insurable except in the case of Old Age Pensioners, who are excluded both as regards contributions and benefits.

Contributions. The scheme provides for a weekly contribution at the following rates:—

CONTRIBUTIONS AS FROM 4TH JULY, 1921.

	Employer	Employee
Men	6d.	5d.
Women	5d.	4d.
Boys	3d.	2½d.
Girls	2½d.	2d.

Unemployment Benefit is now at the rate of 20/- per week for men, and 16/- per week for women. Contributors under 18 are only entitled to half the full rate.

Launderers' Benevolent Fund.

Trustees:—Messrs. E. A. BARTON, T. B. GIFFEN and H. A. LAY.

All Laundry owners should subscribe annually to such a good cause. In the multiplicity of charitable appeals there is a danger that this Fund will be overlooked.

"Charity begins at home." Will those who have not yet done so, send a contribution at once to the HON. SECRETARY,

LAUNDERERS' BENEVOLENT FUND,
162-7, BANK CHAMBERS, 329, HIGH HOLBORN,

National Health Insurance.

CONTRIBUTIONS.

Under the National Health Insurance Act, 1911, the contribution payable in Great Britain was, up to July, 1920, 7d. a week in the case of a man worker, and 6d. in the case of a woman, of which amounts the workers' share was ordinarily 4d. for men and 3d. for women, the employer paying the remainder.

The contributions were increased by the National Health Insurance Act, 1920, and from the 5th July, 1920, the weekly contributions payable for employed contributors in Great Britain were increased to the following rates:—

For Male Contributors	10d.
For Female Contributors	9d.

In the case of exempt persons (*i.e.*, employed persons to whom certificates of exemption have been granted) the rate is 5d.

In the case of employed contributors the worker's share of the contribution is normally:—

For Male Contributors	5d.
For Female Contributors	4d.

but when a worker aged 18 or upwards is not in receipt of board and lodging from the employer, and the rate of remuneration does not exceed 4s. a working day, the amount the worker pays is less, *i.e.*:—

	Man.	Woman.
Rate of remuneration over 3s. but not over 4s. a working day	4d.	3d.
If the rate of remuneration is not over 3s. a working day, the whole contribution is borne by the employer.		

BENEFITS.

The ordinary rates of benefit are as follows:—

	Man. per week s. d.	Woman per week s. d.
Ordinary rate of sickness benefit	15 0	12 0
Sickness benefit before 104 weeks from entry into insurance and payment of 104 contributions	9 0	7 6
Disablement Benefit	7 6	7 6
Maternity Benefit	40s. od.	

Employers are required to pay contributions:—

(a) for non-manual workers, where the rate of remuneration does not exceed £250 a year.

(b) for manual workers, whatever may be the rate of remuneration.
